The Details:

- Advance to Senior Associate requires 1 Associate + \$120 personal premium OR \$180 in personal premium.
- Associates that advance to Senior Associate must attend a Fast Start Training class and complete the First Step Commitment Form within their first 20 days to be bonus eligible.
- Associates that advance to Senior Associate, but do not attend a Fast Start Training class or complete the First Step Commitment Form within their first 20 days will not be eligible to earn a bonus.
- New associates must sign in when attending a Zoom Fast Start Training class.
- To find a Fast Start Training, go to <https://legalshield-calendar.com/> and enter "Fast Start" into the search bar. Select from one of the available trainings and click "Register for Fast Start Training."
- All qualifying associates must have an active LegalShield Advantage Plus subscription.
- The sponsor bonus is paid to the recruiting associate. This would be the sponsor unless the associate was placed under the sponsor. Then, the bonus would go to the placing associate.
- All bonuses will be held for 15 business days once earned for a business review and bonuses can be held up to 60 days for retention review if cancels or precancels are higher than company average.
- New upline sponsors who do not have retention data for the previous month (due to their business being new) are subject to bonuses being held for a 60-day retention review.
- To receive the sponsor bonus, the sponsor or placing associate must have a previous month-end organizational retention rate of 77% or higher to receive full matching bonus. An organizational retention rate of 65 – 76.99% will pay 75% of bonus amounts stated. No bonus will be paid if organizational retention is below 65%.
- Associates with less than 12 months of retention data or associates with the majority of their business in the last three months will be evaluated for retention. The evaluation will be based on the company average for that time period and by the Business Health Index, which calculates future persistency based on associate data.
